(d) Choose **three** powerful words or phrases from the extract below to analyse how the writer uses language to describe the bees and the acacia trees in Damian's field.

'The delicate tracery of acacia leaves cast a dancing dappled shade over the beehives. A worker bee, one of the first to venture uncertainly out of the hive that morning, drew dizzy spirals in the air, as it orientated itself, sensing the nectar in the newly budding flowers. Damian could faintly hear the drones inside the hive humming in reverential attendance on their queen. He looked up. Any day now those acacia trees would burst into flower and cascades of clustered white blossom would turn the trees silver. Then this solitary worker would be accompanied by hundreds of other labourers, all intent on drinking their fill of nectar.'

Write about 200 to 250 words.

Up to 10 marks are available for the content of your answer.
